**HOLE PUNCH SET FOR 2 TO 60 MM
DIAMETER GASKET CUTTING
AND UP TO 420 MM WITH COMPASS**

Cutting tool box

SERVICE PRODUCTS

These hole punch sets make it possible to cut 2 to 60 mm gaskets and up to 420 mm using the supplied compass with cutter blade. The hole punches are easy to lock onto the mandrel handle using a stud system. They can be paired to cut a perfectly concentric gasket in a single operation.

Composition

- ▶ 2 to 60 mm hole punch with locator tip
- ▶ 1 strike head on an ergonomic shock-absorbing handle
- ▶ 1 pyramid shaped mandrel
- ▶ 1 compass adjustable up to 420 mm with cutter blade

Advantages

- ▶ Pairable hole punches to cut a perfectly concentric gasket in a single operation
- ▶ Patented twin-material shock absorbing, ergonomic handle with non-slip holding space
- ▶ Patented vibration absorbing system for true comfort
- ▶ High strength strike head
- ▶ Retractable locator tip
- ▶ Easy to use

Cuttable materials

- ▶ Flexible gaskets of the PTFE, aramid, graphite, synthetic fibre, etc. type.
- ▶ Expanded graphite gaskets with smooth or studded stainless steel insert (max 50µm)

Instructions (thickness < 3 mm)

- ▶ Fit the hole punches onto the centring handle to get the required diameters.
- ▶ Place the material to be cut on a flat, non-metallic surface
- ▶ Firmly strike the strike head using a hammer or mallet.

Designation	Composition	Reference
Gasket cutting tool set with compass included	34 hole punches from Ø 2 to 60 mm and Ø > 420 mm with the compass	900035122
Gasket cutting tool set without compass	29 hole punches from Ø 2 to 50 mm	900035154

Cutting tool set
